Objectieve :

Passionate about crafting seamless mobile experiences, I am a dedicated app developer who thrives on challenges and embraces continuous learning. With a solid foundation in software engineering and an ability to transform complex requirements into intuitive app interfaces, by staying attuned to emerging trends and best practices, I strive to create apps that not only meet functionality goals but also inspire users with their usability and design.

I have been in the industry for more than 10 years, started as a Support engineer morphed into developer. I have been through a fair number of technologies such as SQL, VB, PHP, Java, Kotlin, Swift. Recently doing hybrid development in React Native for Android and iOS.

Professional Summary :

- Over 4 year experience in Databases (SQL Server, Access)

- Over 6 year experience in Android / iOS development

- 2+ year experience in React Native Development

- 2+ year experience in Node.JS / npm

- Over 2 year experience in PHP (CodeIgniter) - MySQL

- 2 Year experience in Desktop application development (VB 6)

- Familiar with MySQL, PLSql

- Familiar with SSAS, SSRS technologies

- Familiar with IIS, Wamp

- Experienced in Core Java, Asp.net and SharePoint Administration
.
- Experienced in working with multiple teams.

- Team player and work efficiently in Growing and Changing Business Environment.
